Heading: Assessment 3: Assuming the role of a statistician – Lane 1 Assessment

Purpose: To enable students to reflect upon their learning within the unit and demonstrate their knowledge and understanding of statistical methods for public health research.

Learning outcomes assessed: 1, 2, 4, 5

Overview: Students will be required to demonstrate their understanding of statistical methods for public health research through a one-on-one conversation with the lecturer/tutor.

Due date: Week 12 in class
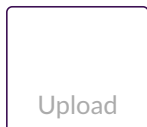

Weighting: 40%

Length and/or format: A 15–20-minute one-on-one conversation with your lecturer/tutor - Lane 1 category task.

**Return of assignment**: Marks and feedback will be returned to students via Canvas

Assessment criteria: Please see marking rubric below
